Calling all
Commercial Watercraft Haulers

CALL BEFORE YOU HAUL

1-844-311-4873
(toll free)

Arrange for watercraft inspections and avoid costly delays while transporting boats across state lines!

3 Things to Know Before You Go . . .

1

Call Before You Haul

Always contact the toll-free number when transporting boats and water conveyances across state lines.

2

Clean. Drain. Dry.

Commercial haulers are responsible for meeting legal requirements of hauled watercraft. Ensure the seller performs Clean, Drain, Dry actions.

3

Stop at all Watercraft Inspection Stations

It's the law. It's mandatory to stop at watercraft inspection stations in any state. Failure to stop may result in a fine.

With limited exception, it is illegal to transport, import, possess, or release aquatic invasive species in the United States.

Invasive quagga mussel

Invasive species can spread by attaching to watercraft and trailers by hiding in compartments. Invasive species can cause great harm to the economy, environment and recreation.

Clean, Drain, Dry actions prevent the spread of aquatic invasive species.
